PROFESSIONAL SUMMARY

Accomplished **Full Stack Developer & Backend Engineer** with 5+ years of experience engineering scalable web applications, enterprise dashboards, and cross-platform mobile apps across 50+ successful deployments. Specialized in modern reactive frontends (**React.js, Next.js, React Native, Flutter, Tailwind CSS**) and enterprise backend architectures (**Node.js, NestJS, Fastify, PHP/Laravel, AWS**). Proven success managing complete project lifecycles from architecture to deployment.

TECHNICAL SKILLS

FRONTEND & MOBILE

React.js, Next.js, React Native, Flutter, Vue.js, TypeScript, Tailwind CSS, Zustand, TanStack Query, Redux, HTML5 / CSS3

BACKEND & DATABASES

Node.js, Express.js, NestJS, Fastify, PHP, Laravel, Python, MySQL, MongoDB, PostgreSQL, REST APIs

CLOUD & SERVERS

AWS (EC2/S3), Ubuntu Linux, Git & GitHub, Postman, SEO Optimization, E-Commerce

WORK EXPERIENCE

Backend Developer • Digitalraiz Creative Solutions

Dec 2025 – Present | Hyderabad, TS

- Engineered high-performance backend microservices and RESTful APIs using **Node.js, Express.js, NestJS, and PHP**.
- Designed and optimized relational & NoSQL databases (**MySQL, PostgreSQL, MongoDB**), accelerating query execution speed and throughput.
- Built secure authentication, authorization, and seamless API integrations for web and mobile platforms.

Full Stack Developer • Billbo Technologies

Aug 2024 – Jun 2025 | Visakhapatnam

- Spearheaded full-lifecycle development of supermarket TV ad dashboards and companion mobile apps, scaling ad scheduling across retail locations.
- Engineered high-throughput backend APIs utilizing **PHP and Node.js** deployed on **AWS EC2 & Ubuntu**.
- Built customer-facing portals and interactive reporting dashboards using **React.js and Next.js**.

Full Stack Developer • Logojech Technologies

Feb 2023 – Jun 2024 | Visakhapatnam

- Architected and launched initial versions of web platforms, admin panels, and cross-platform apps using **React.js, React Native, and PHP**.
- Streamlined relational data models in **MySQL**, improving database read/write throughput by over 30%.

ALL PROJECTS (15)

01. Sherla Properties

Live

Full-stack real estate marketplace with verified listings, vendor panel, and admin system.

ReactNodeZustandTailwind

02. ValueAim AI

Live

AI-powered sales intelligence platform to identify buying signals and close deals faster.

ReactNodeAI Integration

03. VPA Attendance App

Play Store

Visakhapatnam Port Authority mobile attendance management app with HR integration.

React NativePHPMySQL

04. Billbo Dashboards

Enterprise

Supermarket TV advertisement analytics dashboard with live impression data.

PHPMySQLBootstrap

05. LiveWell Rehab

Live

Child developmental rehabilitation e-commerce and therapy resource network.

ReactNodeMongoDB

06. GreenCo Estate

Live

Luxury eco-plots and apartment portal with site plans and admin control center.

ReactNodeAdmin Panel

07. FARE Real Estate

Live

Educational platform offering specialized masterclasses in property sales and RERA.

ReactFramer MotionTailwind

08. CHALOO Sports

Live

Sports platform connecting players, certified coaches, and sports academies across India.

ReactPHPMySQL

09. Little Hearts

Live

Social web application focused on building meaningful community connections.

ReactNodeTailwind

10. VRJ Info

Live

Technology solutions and IT consulting corporate platform with sleek UX.

ReactNodeTailwind

11. Insaat Infra

Live

Corporate portal for infrastructure development company showcasing major projects.

ReactTailwindNode

12. Elephants Monitor

Govt / Forest

GPS tracking and telemetry data management mobile app for forest conservation.

React NativePHPMySQL

13. SVLT.in

Live

Construction & engineering business portfolio showcasing projects and client testimonials.

PHPMySQLReact Native

14. Technoisolutions

Client Site

High-performance tech solutions provider website with optimized lead funnels.

PHPMySQLBootstrap

15. Alantur Dashboards

Internal

Organizational support dashboards monitoring employee productivity and ticketing.

React.jsNode.jsUbuntu
